# FROM THE CHAIR

To Ngabi International stakeholders , staff and friends, I am pleased on behalf of the Board of Directors and management to provide you with an outline of our objectives , our programs and our financial results for 2021 .

2021 was a year full of challenges and transitions for Ngabi International. The COVID-19 pandemic affected the health and wellbeing of millions of people worldwide; it led to drastic loss of human lives and pushed people back into poverty. Many were unable to feed themselves, and children, especially girls, missed out on crucial years of schooling. However, CY 2021 was also a year full of opportunity and learning, from which we were able to renew our commitment to pursue Ngabi International's global strategic vision, reach out to the people we work with and give them the hope that Ngabi International stands with them in and in between crises, while ensuring the safety and health of our own staff and their families.

The pandemic upended the lives of the people whom we work with in 2 countries across North America and Africa; as of December 2020, a total of 3,816,273 people tested COVID-positive in the countries we operate. Our teams on the ground were able to reach over 10 million people across two continents by delivering services and support, using recommended infection control measures, case management support, and socio-economic recovery interventions. We carried out these programme activities by partnering with governments, community leaders, and local and international NGOs. In addition, our team developed innovative approaches for programming

We maximized our impact by working with local partners and hiring local staff, benefiting from their close connections with the affected communities and their knowledge of local culture and language. We know there is more work to be done in Africa. But we also know that our local staff and partners are best-placed to lead and direct this work. Inclusive and equal partnerships - amongst organizations, communities and men and women - are how Ngabi International continues to forge resilience in the face of crisis. This is also how Ngabi International continues to create real, systemic change that lasts through generations.

I am privileged to have been part of such a global organization in my tenure as Board Chair and wish you a nice reading.

# FROM THE CEO

Like so many others, Ngabi International's 2021 was dominated by COVID-19. From the pandemic's earliest days, Ngabi International's work evolved and expanded to meet unprecedented needs. Projects were put on hold and a global taskforce was launched to coordinate a network-wide response, even as offices faced shutdowns and lockdowns. Ngabi International employees continued their tireless work, most from the safety of their homes. Despite uncertainty and limitations, Ngabi International found ways to safely support those we serve and extend to reach millions affected by this global health crisis.

We are reminded in Joshua 1:9 (NIV), "Be strong and courageous. Do not be afraid; do not be discouraged, for the Lord your God will be with you wherever you go." In the face of this shared tragedy, we are stronger and more faithful than ever.

Skills Empowerment Project (SEP) is a partnership between Ngabi International an International non-profit based in Canada and BattleCreek Vocational Training School a vocational training school based in Uganda. This skilling project is particularly keen to foster communities in Uganda in which no training and educational opportunities have previously existed. The goal is to motivate to make up to 30% of the participants mainly girls, women and generally youth by the end of 2022, over 200 youths will be working either independently, as self-employed operators, or in newly created jobs.
